

Please do not upload this copyright pdf document to any other website. Breach of copyright may result in a criminal conviction.

This pdf document was generated by me Colin Hinson from a Crown copyright document held at R.A.F. Henlow Signals Museum. It is presented here (for free) under the Open Government Licence (O.G.L.) and this pdf version of the document is my copyright (along with the Crown Copyright) in much the same way as a photograph would be.

The document should have been downloaded from my website <https://blunham.com/Radar>, or any mirror site named on that site. If you downloaded it from elsewhere, please let me know (particularly if you were charged for it). You can contact me via my Genuki email page: <https://www.genuki.org.uk/big/eng/YKS/various?recipient=colin>

You may not copy the file for onward transmission of the data nor attempt to make monetary gain by the use of these files. If you want someone else to have a copy of the file, point them at the website. (<https://blunham.com/Radar>). Please do not point them at the file itself as it may move or the site may be updated.

It should be noted that most of the pages are identifiable as having been processed by me.

I put a lot of time into producing these files which is why you are met with this page when you open the file.

In order to generate this file, I need to scan the pages, split the double pages and remove any edge marks such as punch holes, clean up the pages, set the relevant pages to be all the same size and alignment. I then run Omnipage (OCR) to generate the searchable text and then generate the pdf file.

Hopefully after all that, I end up with a presentable file. If you find missing pages, pages in the wrong order, anything else wrong with the file or simply want to make a comment, please drop me a line (see above).

It is my hope that you find the file of use to you personally – I know that I would have liked to have found some of these files years ago – they would have saved me a lot of time !

Colin Hinson
In the village of Blunham, Bedfordshire.

INDEX TO RADIO
PUBLICATIONS

NOTE TO READERS

Air Ministry Orders and Vol. II, Part 1 leaflets may affect the subject matter of this publication. Where possible, Amendment Lists are issued to bring this volume into line, but it is not always practicable to do so.

When an Order or leaflet is found to contradict any portion of this publication, the Order or leaflet is to be taken as the over-riding authority.

When this volume is amended by the insertion of new leaves the new or amended technical information is indicated by a vertical line in the outer margin. This line is merely to denote a change and is not to be taken as a mark of emphasis.

Each such leaf is marked in the top left-hand corner of the right-hand page with the number of the A.L. with which it was issued.

Vol. I

This leaf issued with A.L. No. 1

February, 1947

Section 1

INTRODUCTION

INTRODUCTION

In Section 2 of this book, the majority of the units, installations, instruments, code names and general subjects forming the bases of Air Publications, are arranged in alphabetical order and, where practicable, in numerical order of Type or Mark, in the left-hand column of the page. The relevant Air Publication is quoted in the centre column.

To facilitate search, the right-hand pages have been coded by the use of a symbol normally consisting of the first letter, or letters, of the first entry on the page. Some deviation from the official terminology has, however, been found necessary in certain groups, for example:—

- (1) *Radio installations* (ARI. . . ., etc.) have been included as *Radio installations* (**RAD**), and include all installations whether of ARI, MGRI, FGRI or the like. These are arranged in numerical order irrespective of the individual prefix. This use of the designation **RAD** was adopted to avoid possible confusion with the category—
- (2) *Instruments* (**INS**), which includes receivers, transmitters, transmitter-receivers, amplifiers and wavemeters. Here, also, a numerical arrangement, regardless of prefix, has been considered desirable.
- (3) *Vehicles, radio* (**VEH**) is arranged in numerical order of Type, the inversion of the words serving to obviate confusion with the category *Radio installations*.
- (4) *Panel, control* (**PAN**), is similarly inverted to avoid clashing with *Control unit*. *Panel*, without other qualification, will be found under **P**.
- (5) *Box, aerial coupling*, (**B**), was considered better for quick reference than **AER** as the section under the latter symbol was already very extensive.

Apart from the exceptions listed in (1) to (5), the official Stores nomenclature has been used, as, for example, **CHA** for *Chassis assembly*, **CON** for *Console*, and **GEN** for *Generator*.

After obtaining the necessary Air Publication reference from Section 2, readers are advised to check the number from Section 3, and also whether the publication is still available. The letter **O** indicates that the book is obsolete and is no longer available on demand from Air Publications and Form Stores (APFS). With the possible exception of a few books, initially produced in limited quantities and of which stocks may now be exhausted, the remainder should be readily forthcoming on demand.

In general, all available information is contained in Volume I of the publication. Any *Modification leaflets*, however, are issued as Volume 2, Part 1. In certain instances routine servicing information may have been issued separately as Volume 2, Part 2 (*Inspection*), as Volume 2, Part 3 (*Field servicing*), as Volume 2, Part 4 (*Workshop servicing*), and, occasionally, as Volume 2, Part 5 (*Depot repairs*). Volume 3, when it exists, is devoted to the *Schedule of spare parts* for the equipment described in Volume I. These additional books are noted in the remarks column of Section 3 thus:—
II (1) indicates that a Volume 2, Part 1, has been issued.

The previous paragraph refers to earlier publications; since 1948 (see Air Diagram 4848) publications have been divided into six volumes, which are indicated by the same system.

The following signs are used in Section 2, immediately before the *A.P. No.* relating to an equipment:—

* indicates that a related Air Diagram is available

To identify the Air Diagram in question, reference should be made to Section 4.

GLOSSARY OF ABBREVIATIONS

I A. - - -	Amplifier, Type - - -	Cal.	Calibration or calibrator
ACR	Airfield control radar	CD	Coastal defence
A.D.	Air diagram	C.D.	Confidential document
AF	Audio frequency	I Ch.	Channel or chassis
AF and RG	Aerial framework and rotation gear	CH	Chain home
I AFC	Automatic frequency control	CH/L	Chain home, low
AGC	Automatic gain control	Circ.	Circuit
AGLT	Assisted gun-laying in turrets	CMH	Centimetric height-finding apparatus
AGS	Automatic gain stabilization	CO	Chain overseas
AI	Aircraft interception	CO/L	Chain overseas, low
I Alig.	Alignment	I Comp. loc.	Component location
AMES	Air Ministry Experimental Station (Ground radar)	Con.	Console
I AN/ - - -	American installation*	CRT	Cathode ray tube
A.P.	Air Publication	c/s	Cycles per second
API	Air position indicator	CU	Control unit
ARI.	Airborne radio installation	CV	Common valve
ASV	Air to surface vessel		
I Assy.	Assembly or Assembling	I DFg.	Direction finding (Marconi)
ATGRI.	Air transportable ground radio installation	D/F	Direction finding
A.T.M.	Automatic Telephone Manufacturing Co.	/DIAGS.	When suffixed to an A.P. number, indicates that a separate set of circuit diagrams included in the publication is available in an envelope
ATP	Air Technical Publications	I Dism.	Dismantling
Auto	Automatic	I Div.	Diversity reception
AVC	Automatic volume control	I Dr.U	Drive unit
BA	Beam approach		
BABS	Beam approach beacon system		
BFI	Back to front identification		
Bl. sch. (BS)	Block schematic	EM	Electro-magnetic
B.S.U.	Bomber Signals Unit	Eqt.	Equipment
B.T.-H.	British Thomson-Houston	ES & S	Equipment Schedules and Spares (Vol. 3)

* See Note on American installation codes, at the end of this glossary.

F.A.A.	Fleet Air Arm	MCRI.	Marine craft radio installation
FGRI.	Fixed ground radio installation	Mc/s	Megacycles per second
FS	Frequency shift	Mic.	Microphone(s)
G.E.C.	General Electric Company	MGRI.	Mobile ground radio installation
G.P.	General purpose	Met.-Vick.	Metropolitan-Vickers
Gee-R	Gee-Rooster	Min	Miniature
I Gen.	General, Generator	Mod.	Modulator or modified
		Mon.	Monitor
H/R	Height-range	I MoS	Ministry of Supply
H2S	Name of radio navigation system	Mk.	Mark
		MRU	Mobile radio unit
		MV	Multivibrator
		μ V	Microvolt
		MWT	Marconi's Wireless Telegraph Co.

I, II etc.	See Intro.	N.A.A.	Naval Air Arm
I/C	Intercommunication		
ICH	Intermediate chain home		
IF	Intermediate frequency		
IFF	Interrogation, friend or foe		
ILS	Instrument landing system		
Ind.	Indicator	O	Obsolete
I Inf.	Information	Op.	Operating, operator
Inst.	Installation	Osc.	Oscillator
I Intercon.	Interconnection		
IU	Indicating unit		

I JB	Junction box	I Partics.	Particulars
		Ph.	Phase
		I PP	Power Pack
		PPI	Plan position indicator
		I Prep.	Preparation
		PRF	Pulse recurrence frequency
		Prov.	Provisional publication
		I PT	Performance tester
		PU	Power unit
I Ldg.	Leading		

R. - - - -	Receiver, Type - - - -	T. - - - -	Transmitter, Type - - - -
R.A.	Rack assembly	TBA	Tunable beam approach
Rad	Radio	Tes.	Testing
R.A.F.	Royal Air Force	TGRI.	Transportable ground radio installation
RC	Remote control	TR. - - - -	Transmitter-receiver, Type - - - -
RCM	Radio countermeasures	Tr.	Trainer
RDF	Radio direction finding (radar)	TS	Test set
Reas.	Reassembly	TU	Transmitter unit
Reb.	Rebecca system	Tun.	Tuner or tuning
Rec.	Receiver or receiving	Tx	Transmitter
Rect.	Rectifier		
RF	Radio frequency	U	Unit
R/T	Radio telephony	UHF	Ultra high frequency
RTP	Research and Technical Publications (now A.T.P.)	VHF	Very high frequency (usually taken as the 100-150 Mc/s band)
RU	Receiving unit	Vid.	Video
R.V.	Radio vehicle	V/P/S/C	Volume/Part/Section/ Chapter (subdivisions of an A.P.)
RVT	Radio vehicle Type - - - -	VRB	Voice rotating beacon
Rx	Receiver		
SBA	Standard beam approach		
S band	9 cm. band	W. - - - -	Wavemeter, Type - - - -
S.C.	Simplified circuit	WFG	Waveform generator
SCR	American installation	Wfms	Waveforms
Schem.	Schematic	W/T	Wireless telegraphy
S.D.	Secret document		
SG	Signal generator		
Simp.	Simplified	X band	3·1 to 3·3 cm. band
SOC	Sector Operations Centre		
SR & R	Sound recorder and reproducer		
SSB	Single sideband		
S.T.C.	Standard Telephones and Cables Ltd.		
SU	Setting-up		
SUI	Setting-up instructions		

Note on American installation codes

The American AN/ - - - series of installations are identified by three letters following the solidus (shilling-stroke). The first letter tells the method of installing, **A** meaning airborne, **C** air-transportable, **F** ground (fixed), **G** ground (general), and may include two or more ground installations, **M** ground mobile, **P** pack or portable, **S** shipyard, **V** ground vehicle, **T** ground transportable, and **U** general utility, two or more classes.

The second letter tells the type of equipment, **B** pigeon, **C** carrier (wire), **F** photographic, **G** telegraph or teletype, **I** interphone or public address, **M** meteorological, **N** sound, **P** radar, **R** radio, **S** special types, **T** telephone, **V** visual, and **X** facsimile or television.

The third letter tells the purpose, **A** assemblies, **C** communications (transmitting and receiving), **D** direction finding, **G** gun directing, **L** searchlight control, **M** maintenance and testing, **N** navigation aids, **Q** special, **R** receiving, **S** search and detecting, **T** transmitting, **W** remote control and **X** identification and recognition.

ALPHABETICAL INDEX OF EQUIPMENTS DESCRIBED IN AIR PUBLICATIONS

<i>Equipment</i>	<i>A.P. No.</i>	<i>Remarks</i>
AB2	2566 A	500-3000 Mc/s
ABF	2275 A, Vol. I, Part 2, Sect. 8	Operating manual
ABK	2887 B	American equivalents of R.3067 and R.3070, IFF Mk. 3
ABK-1	2275 A, Part 2, Sect. 8	Operating manual
ABR3	2566 B	13-520 Mc/s
Abbreviations to be used in the Civil Aeronautical Radio Service, and "Q" code	BJCP-2	British Joint Operating Signals
Accumulator charging set, featherweight, 360 W DC	1186 E, Sect. 1, Chap. 2	
Accumulator charging set, 1,260 W	2526 E	
Accumulator, cut-out, Type J	2526 T	Part of Petrol-electric test set, 4F/1668
Accumulators, alkaline, for radio vehicles	1186 E, Sect. 5, Chap. 3	
Accumulators, alkaline, general notes	1186 E, Sect. 5, Chap. 2	
Accumulators, lead acid	1186 E, Sect. 5, Chap. 1	
AC generator, B. T. H. Type AJ	1186 E, Sect. 1, Chap. 15	
ACH transmitting and receiving aerials	2888 A, Sect. C	Inspection
ACR Mk. 1	2899 G	FGRI.5656
ACR Mk. 1. Instructions for controllers	2899 H	
ACR Mk. 2-M	2899 J	MGRI.5678
ACR Mk. 3-X	2899 K	
AC test sets	1766 J	Supply 80V AC, for testing airborne equipments
AD 97/108	2883 H	Marconi equipment in D.H. "Dove"
AD 7092	2883 J	Radio goniometer
► AD 7092A	2883 KA	Marconi
Adapter unit, Type 15	2550 A	Part of T.1190
88	2533 C	Used with AYF
123	2537 C	To adapt American valve tester I-177 for British valves
► 141	2538 HA 6/2/1/6	TR.1935 etc.
► 148		Test kit Type 10
Aerials, aircraft, Type 36 to 38	2558 C	Airborne RDF aerial and cabling installation (Sunderland)
72	2558 C	Airborne RDF aerial and cabling installation (Sunderland)
74 to 76	2558 B	Airborne RDF aerial and cabling installation (Liberator)

<i>Equipment</i>	<i>A.P. No</i>	<i>Remarks</i>
Aerials, aircraft, Type		
77	{ 2558 D 2558 E	Airborne RDF aerial and cabling installation (Whitley and Catalina)
81-84	2558 E	Airborne RDF aerial and cabling installation (Catalina)

	5			<i>Testing and measuring instruments</i>	
	5	1		W.42, W.42 A	For ground equipment, 15–8,000 kc/s
	5	2		W.39, W.39 A	For ground equipment, 25–6,700 kc/s
	5	3		W.66	For aircraft equipment, 3–15 Mc/s
	5	4		W.69	For ground equipment, 4–7 Mc/s
	5	5		W.75	For ground equipment, 3–4·3 Mc/s
	5	6		W.1081	For airborne equipment, 135– 500 kc/s and 3–15 Mc/s
	5	7		Tester R/T, type 1	Portable test set

Note.—Subject matter of each book is UNCLASSIFIED unless R meaning RESTRICTED appears in the remarks column.
 G (AL19)

<i>A.P. No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L. No.</i>	<i>Title</i>	<i>Remarks</i>
1186	5	8		W.1095	For ground equipment, 1·22-1·54 Mc/s and 2·0-3·4 Mc/s
	5	9		Modulation indicator, type 1 and 2	For measurement of percentage modulation
	5	10		Valve tester, type 2	O For standard 2-volt valves
	5	11	2	Mic. tester, type 1, and noise generator	For carbon mic.
	5	12	18	Crystal monitor, type 1	O For ground equipment, 3-7 Mc/s
	5	13	10	W.1117	For airborne equipment. Replaces W.1081. 125 kc/s-20 Mc/s
	5	14	17	Crystal monitor, type 2	For airborne equipment, 1-7·5 Mc/s
	5	15	27	Oscillator unit, type 12	Portable sig. gen. for R.1124 A, R.1125 A, 30·5-40·5 Mc/s
	5	16	35	Test set, type 6	Absorption wavemeter for BA transmitters, 30·5-40·5 Mc/s
	5	17	42	Output meter, type 4	Cancelled. See A.P.2534 B
	5	18	43	Test set, type 65	Cancelled. See A.P.2548 A
	5	19		W.1160	Cancelled. See A.P.2536
	5	20		W.1191	Prov.
	5	21	48	Test set, type 7	For testing standard crystals
	5	22	54	Oscilloscope, type 7	Cancelled. See A.P.2879 T
	<i>W/T and R/T ancillary equipment</i>				
	6	1		Rectifier, type B	Power unit for ground equipment
	6	2		Valve type buzzer	Instructional
	6	3		Valve buzzer, type 2	Instructional
	6	4	5	Aerial winch, type 5	For control of aircraft trailing aerials
	6	5	13	Aerial, screened loop, type 1	D/F airborne

<i>A.P. No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L. No.</i>	<i>Title</i>	<i>Remarks</i>
1186 A	6	4	12	Rack assembly, type 6 A	For use with six grouped transmitters
	6	5	10	Control unit, type 40	For remote operation of single R/T channel
	6	6	20	Rack assembly, type 10	Comprises two R.1132 A, crystal monitor, type 4, etc.
7				<i>Operations room equipment</i>	
7	1	2		Control unit, type 3 A	For remote control of R/T circuit
7	2	17		Control unit, type 4 A	Four channel remote control unit
7	3	11		Control unit, type 10 A	For monitoring local and forward relay circuits
7	5	28		Relay unit, type 9	For use with control units, type 3 A and 4 A
8				<i>Relay stations, mobile and fixed</i>	
8	2	23		Line termination unit, type 1	For use at VHF relay stations
8	3	24		Relay unit, type 12	For automatic operation of control unit, type 7 A
8	4	15		Control unit, type 7 A	For use with two-channel VHF mobile and fixed relay stations
8	5	25		Rack assembly, type 8 and 9	For single channel VHF relay stations
8	6	31		Rack assembly, type 11	For two-channel VHF fixed forward relay stations
8	8	19		VHF transmitter vehicle	Vehicle, type 1. Forms MRU type 3 with Trailer, type 1
8	9			Trailer, type 1	Forms MRU type 3 with Vehicle, type 1
9				<i>Miscellaneous ground equipment</i>	
9	1			VHF blind approach ground equipment	Prov.
9	2			Ringing unit, type 1	Prov.
9	3			Signals tender, type 162	Prov.

} Chapters separately issued

<i>A.P. No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L. No.</i>	<i>Title</i>	<i>Remarks</i>
1186 A	10			<i>Transmitter-receivers</i>	
	10	1	7	TR.1133 A, TR.1133 B	Airborne VHF, 100-120 Mc/s
	10	3	36	TR.1133, TR.1133 E, F	100-120 Mc/s
	10	4		TR.1143	112-124 Mc/s. Issued pro-visionally as A.P.2528
	11			<i>Power units</i>	
	11	1	35	Power unit, type 2 A and 10	
	12			<i>Junction-box assemblies, Con-tactors, Controllers</i>	
	12	1	30	Junction-box assemblies, TR.1133 A, B	
	13			<i>Aircraft aerials</i>	
	14			<i>Test equipment</i>	
	14	1	425	Test set, type 5 A + 5 B.	For TR.1133 A, B, 1143, 1430
	14	2	3	Test set, type 11	Field-strength indicator for TR. 1133 A, B
	14	3	13	Test set, type 10	For bench testing of TR.1133 A, B
	14	4		Test set, type 48	○ For VHF/BA. Prov.
	14	5		W.1322	For VHF/BA. Prov.
	14	6	34	Signal generator, type 12	18-150 Mc/s
	14	7		Test set, type 68	For VHF/BA. Prov.
	14	8		Test set, type 98	For VHF/BA. Prov.
	14	9		Test set, type 44	Prov.
	15			<i>Miscellaneous aircraft equip- ment</i>	
	15	1		VHF/BA airborne equipment	Prov. Superseded by A.P.2528E

<i>A.P.</i> <i>No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L.</i> <i>No.</i>	<i>Title</i>	<i>Remarks</i>

					II(1), III
1	1			Standard glide path transmitter equipment	Prov.
1	2			Transportable D/F equipment, type DFP 4	Portable D/F receiver, 75 kc/s- 3·4 Mc/s. Prov.
1	3			Transportable D/F equipment, type DFP 3	
1	4	8		Standard BA ground installations, FGRI.5069, TGRI. 5041	Main beacon transmitters
1	6	4		Automatic keying device, type 2	For use with BA transmitters, T.1122, T.1254, T.1345
1	8	2		TGRI.5070	Mobile Adcock D/F, 2·5-9·0 Mc/s
1	9	7		FGRI.5055, FGRI.5207	Adcock D/F, 150-500 kc/s, 3-15 Mc/s
1	11	3		Radio-goniometer unit, type 12/3	Spinning goniometer
1	13	5		FGRI.5056	Adcock D/F, 1·5-20 Mc/s 111
2				<i>Airborne equipment</i>	
2	1			Standard glide path receiving equipment	Prov.
2	3	6		Radio altimeter, type 5, and Test set, type 84	
2	4	1		Airborne HF D/F installations	R.1369 for use with Bendix radio compass MN-26-C, 4-14 Mc/s
3				<i>Trainers</i>	
3	1			Trainer, type 3	Superseded by A.P.2548 D

Note.—Subject matter of each book is UNCLASSIFIED unless R meaning RESTRICTED appears in the remarks column

<i>A.P. No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L. No.</i>	<i>Title</i>	<i>Remarks</i>
1186 D				Electrical equipment (airborne)	
	1			<i>Panels control</i>	
	1	1	22	Panels, control, types 3, 4, 5	For control of AC generators
	1	2	10	Control panel, type 6, and Choke box, type 1	For control of dual-purpose generator, type UKX
	1	4	50	Control panels, type 9 and 10	For control of rotary convertors
	1	5	17	Control panel, type 7	For use with dual-purpose generating set (42Y/1000)
	1	6	49	Control panel, type 11	For control of motor generator, type 4, 4 B
	2			<i>Regulators</i>	
	2	1	37	Voltage regulators, type 12, 13, 15, 16, 19 and 21	
	2	2	45	Voltage regulator, type E	Supersedes A.P.1766 JA
	2	3	35	Voltage regulator, type G	For control of rotary transformers
	2	4	47	Voltage regulators, type 26 and 26 A	
	2	5	36	Voltage regulators, type 34 35 and 36	
	2	6	40	Voltage regulator, type 33	
	2	7	54	Voltage regulator, type 37	
	2	8	53	Voltage regulator, type 40	
	3			<i>Rotary transformers, motor generators and convertors</i>	
1186 D	3	1	6D	Care and servicing of rotary transformers	
	3	2	2	Rotary transformers, type Q, R, 35, 36, 46, 47, 49, 50, 27 and 57	
	3	3	8	Rotary transformers, type J, P, U and V	For airborne TR. units
	3	4	4	Rotary transformers, type 28, 29, 30 and 31	For T.1154/R.1155
	3	5	5	Rotary transformers, type 51, 52, 257, 258, K, M, 37 and 38	
	3	6	.6	Rotary transformers, type 33 and 34	For R.1147
	3	7	51	Rotary convertors, type 2 and 3	
	3	8	9	Rotary transformers, type 65 and 72	

<i>A.P. No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L. No.</i>	<i>Title</i>	<i>Remarks</i>
1186 D	3	9	42	Motor generators, type 4 and 4 B	11(5) A/L32
	3	10	25	Rotary transformers, type 77 and 78	
	3	11	38	Rotary transformers, type 75, 76 and 91	
	3	12	46	Motor generators, type 73 and 74	
	3	14	41	Rotary transformer, type 79	
	3	15	56	Rotary converter, type 8	
	3	16	48	Motor generator, type 7	11(5) A/L32
	3	21	52	Rotary transformer, type 107	
	4			<i>Magnetic relays</i>	
	4	1	13	Magnetic relays, type 219 and 220	
	4	2	21	Magnetic relay, type L	
	5			<i>Starters</i>	
	5	1	3	Automatic starters, type A, C, D, 5, 6 and 8	
	5	2	7	Automatic starters, type 14 and 15	
	6			<i>Switches</i>	
	6	1	12	Birdak inertia switch	
	7			<i>Miscellaneous</i>	
	7	1	29	Flasher, type E	
	7	2	33	Air blowers, type B, C, H and 12	
	8			<i>Power units</i>	
	8	1	16	Power unit, type 173	For TR.9
	8	2	27	Power unit, type 295	For TR.9, A.1134

Note.—Subject matter of each book is UNCLASSIFIED unless R meaning RESTRICTED appears in the remarks column

<i>A.P. No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L. No.</i>	<i>Title</i>	<i>Remarks</i>
1186 D	8	3	20	Power units, type 15 and 16	For TR.1143, TR.1143 A, TR.1430
	8	4	44	Power units, type 319 and 320	
	8	5	30	Power units, type 32, 32 A, B, 33, 33 A, B, 34, 34 A, 35 and 35 A	For T.1154/R.1155
	8	7	43	Power unit, type 159 and 165	
	8	8	24	Power unit, type 87 and 104	For TR.1196/1196 A
1186 E				Electrical equipment (ground)	II(1)
	1			<i>Small generating sets</i>	
	1	1	13	Care and servicing of genera- tors	
	1	2	9	Accumulator charging set, Featherweight, 360 W. DC. 42S/1	
	1	6	23	Tangye 3-phase generating set, 10 kVA	
	1	10	11	DC generator, B.T.H. type DY (exciter), 480 W	
	1	14	24	Chorehorse generator set, 350 W	
	1	15	10	AC generator, B.T.H. type AJ	
	1	16	28	Blue Diamond generator	
	1	20	33	Tangye single-phase alterna- tor, 10 kVA	
	2			<i>Motors</i>	
	2	1	32	Crompton motor for Test set, type 88	
	2	2	30	Selsyn motors—general prin- ciples	
	2	3	54	Selsyns, type 26, 40, 47, 54, 60, 68, 118, 160 and 161	
	2	4	72	Magslips—general principles	
	2	5	71	Magslips—various types	
	2	6	73	“M” motors	

<i>A.P.</i> <i>No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L.</i> <i>No.</i>	<i>Title</i>	<i>Remarks</i>
1186 E	3			<i>Regulators</i>	
	3	1	18	Stone's automatic voltage regulator, type VS/25/5	
	3	2	3	Stone's regulator, type VS/75/18 M	
	3	3	2	Met.-Vick. regulator, type VP	
	3	4	4	Isenthal voltage regulator	
	3	5	43	Voltage regulators, type C and H	
	3	7	67	Voltage regulator, type J and JZ	
	3	8	59	Voltage regulator, type 23	
	3	9	55	Voltage regulator, type 32	
	4			<i>Airborne-type generators</i>	
	4	2	16	Generator, DC, type K	
	4	3	19	Generators, AC, type R and U	
	4	4	17	Generator, AC/DC, type UKX	
	4	5	20	Generator, AC/DC, type RLX	
	4	6	74	Generator, type UO	
	4	7	21	Generator, AC, type VZ1	
	4	8	42	Generator, DC, type HZ	
	4	10	75	Generator, type O	
	4	11	48	Generator AC, type U and U2	
	4	13	57	Dynamotor, type D	

Note.—Subject matter of each book is UNCLASSIFIED unless R meaning RESTRICTED appears in the remarks column

<i>A.P. No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L. No.</i>	<i>Title</i>	<i>Remarks</i>
1186 E	5			<i>Miscellaneous</i>	
	5	1	15	Lead-acid accumulators	
	5	2	36	General notes on alkaline accumulators	
	5	3	37	Alkaline accumulators for radio vehicles	
	5	4	22	Control panel, type 7	
	5	5	35	Primary cells	
	5	6	40	Constant voltage transformer, 1·6 kVA, type 1179	
	5	7	49	Control panel, type 7A	
	5	8	44	Cut-outs, type B and E	
	5	9	45	Rotary convertors, type HJA and LJA	
	6			<i>Power units (ground)</i>	
	6	1	26	Power unit, type 138	For R.1228, R.1392 and R.1132A
	6	2	27	Power unit, type 298	For use with R.1273
	6	3	38	Power unit, type 380	For R.1155 series
	6	4	31	Power units, type 114 and 115	For T.1154 series
	6	5	39	Power unit, type 195	

On the back of the leaf 1186E(1), below the last entry, write (Sect.) 6, (Chap.) 6 (A.L. No.) 76
Power unit, type 734.

<i>A.P. No.</i>	<i>Sect.</i>	<i>Chap.</i>	<i>A.L. No.</i>	<i>Title</i>	<i>Remarks</i>
1186 E	7			<i>Test sets</i>	
	7	2	41	Norman 1·2 kVA test set (42Y/800)	
	7	3	12	Douglas generating set (42Y/ 1000)	
	7	4	14	Portable AC test set for flying boats
